Connecting our people ▼

Employees are Divine IT's soul, the most valuable asset. Our major concern is our customer satisfaction and efficacy and employee growth. Divine IT is always concerned about its professionals' progress. Company always put strong emphasis on employees' personal and professional enrichment. Most of the professionals who were with the company since the beginning are now part of the senior management and helping the company by guiding and sharing their knowledges, experiences with all juniors and new members. Our team members are provided with technologically advanced work environment, challenging yet an amicable atmosphere. We also encourage our new talents by providing them the best opportunities, offering them advance theoretical knowledge as well as hands-on training. We are glad to help our people to nurture their manifold talents through providing them professional training on software development technologies, methodologies, project management and other spheres. Divine IT's powerful workforce is aligned with its rate of growth and is continuously focused on adopting new technologies to create advance products and improve the quality of all services and products that we offer.
